After a convention filled Labor Day Weekend, we return to missed news, including confirmation that Final Fantasy XVI will be headed to PC (was there ever really any doubt?) and have 2 DLC releases in the coming months. Not just this, but a new Nintendo Direct showed off some detail on Super Mario Wonder. And also while we were out, a long running gaming studio closed with their last game releasing on Playstation Plus within the same breath. Phew, it's been an action packed week, and we cover all the news on another episode of the longest running video game podcast- Orange Lounge Radio!

Also in the News:

- * Playstation Plus to Increase Price
- * No DLC Coming for Tears of the Kingdom
- * Was Switch 2 Behind Closed Doors at Gamescom?
- * Megan Fox Joins Mortal Kombat

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
