

Final Fantasy XIV released on Xbox Series this week, and while Rob took the opportunity to unlock some quick achievements, not every Xbox player has been so lucky. An overzealous algorithm has allegedly been banning people unnecessarily, for behavior one would expect in an MMO. Is Xbox being too anal retentive with it's policy, or is this a downside of leaning too much into AI? We discuss this and much more in the news on another week of the longest running weekly video game podcast, Orange Lounge Radio!
