Skype Us

If you have been listening the show then you have heard about the exciting addition of Skype to our studio. This will allow our broadband listeners to "call" us live on the show from their desktop. All you need is a microphone and a broadband connection.

This is an exciting new tool for the show and we can't wait to talk with some of our listeners. At various points in our show, we'll "open up the skypeline" for anyone who wants to give some input on one of the topics we're discussing.
