Schlagwerk - TaQ (beatmania IIDX 3rd Style)

Man this song takes me back.... even before the early days of OLR we'd all get together and play all of Konami's Japanese bemani games (DDR 3rd-5th, IIDX, PPP, GF/dm) ... this song was pretty popular amongst my local group... It still is today -- it lives on as the original theme for everyone's favorite angsty segment, the F*** YOU of the week!

This is FUCKED UP, indeed. :P
