Gamelan De Couple

TOMOSUKE

DDR EXTREME, MAMBO A GOGO!

Hopefully *your* fondest memory of this song isn't failing out of it during a freestyle tournament!
:P

While the fate of 'DDR Vol. 1' may be in limbo, I still have a great DDR song as my pick this week! going all the way back to my first (and last) DDR freestyle tournament, I chose one of the most memorable songs in EXTREME's lineup, Gamelan De Couple!

This song was a transplant from the little-seen Konami title, MAMBO A GOGO! in the arcade. DDR EXTREME featured many crossovers from this game, as well as GF/dm, PPP, beatmania, IIDX, and many others! The song itself is a very 'fun' song, hopefully getting you in the mood for a Mexican fiesta!

Maybe Konami could include this in their next Wii installment, it would certainly be a fun song to add Wii/Nunchuck/Balance Board shenanigans to, in addition to just stepping on arrows.
