We have talked about Chrono Trigger before and it's pretty awesome. And it also has a sequel! Not a direct sequel but Chrono Cross happens on the same universe as its predecessor. The game is kind of different than Chrono Trigger, but it offers the same gameplay elements you are already familiar with. Though, like it sometimes tends to happen, this sequel didn't please most fans since it offers little to no relation at to Chrono Trigger and the battle mechanics aren't that good either. But something that most people say it surpasses Chrono Trigger on is the soundtrack. If the first game had awesome music, Chrono Cross is like 10 times better! And how do we know? The moment you start the game and the intro plays, you get this wonderful song called "Scars of Time". It is pretty much telling you how awesome the soundtrack is with just the first song alone.

"Scars of Time" is pretty and a strong song at the same time, it captures you with its tune, then it builds up to a more epic song, worth of an orchestra playlist set.
