Until I took a Pinkie Pie to the Knee!

Today's video features Skyrim, a game with big adventures and lots of fun. And of course the mods for it make it way more fun and hilarious. And of course internet sensation, My Little Pony Friendship is Magic, wasn't left behind. There are lots of mods related to the show but I wanted to share one of the latest mods created.

Hacking and slashing Pinkie Pie style!

If you want to use the Pony weapons on Skyrim, you can check it out on the Steam Workshop [here](#).

If you have any suggestions for future Video Stumble articles, you can send me a Tweet over at [@act_deft](#), or just leave a comment.

Until next time, *watch you later! (And keep on Smiling)*
