(I can't link you to download this directly.)

FirE5 week continues here on OLR! My 2nd pick is the oldschool DDR license, My Fire! one of the original licenses that appeared in DDR during its debut on the PSX back in the late 90s!

Tune in tomorrow as act-deft caps off FirE5 week with a classic (and I do believe this is a song/video stumble combo) so watch for that on the site tomorrow!
