As everyone should know by now when Orange Lounge Radio started in May 2002 it was an online radio station dedicated to broadcasting the fantastic music from various music rhythm games. More specifically though it was mostly about DDR and Konami's Bemani. With that in mind Konami's 40th birthday is happening on Saturday March 21st 2009. We here at OLR thought what better way to spend the next week than remembering our 5 favorite Konami games.

Then we realised how many games Konami have actually made;
Over 1500!

So we asked you, our beloved community, what your favorite games were and you've let us know. Starting Monday, March 16th, every day until Saturday we will be counting down your picks for greatest Konami game!

Also a little something I'm cooking up for Konami's birthday. Let me know your favorite Konami moments in

[our forums](#)

and the best will go on the homepage Saturday!

So until tomorrow enjoy this amazing Konami Wai Wai world song done by

[Hyadain](#)

to get everyone in the mood.
