Just relax, you've made it.

Today's track is "Little Bonus Room" from Skullmonkeys

Please note due to copyright issues I can not make this song available for you to download directly.

Side scrolling platformers are a dime a dozen but none do it with more style (and clay) than Skullmonkeys. Terry Scott Taylor managed to write some of the greatest and most memorable music ever found in a video game series and as such even 10 years being shipped they are still held in high regard for their music, graphics, humour and style.

If you want to post your opinion about today's track or you've got a song suggestion you would like to see featured from a game let us know in the comments and we'll see what we can do about featuring it in an upcoming article!
