Sorry this one's coming up so late everyone been pretty busy with stuff around the house all weekend!

[DJRanmaS](#) : For me, it's been Final Fantasy III on the DS all week.

[RyanBelknap](#) : I have been playing Fallout 3 for the PC. Also I have beaten the game Slingo Quest for the PC.

[MarronMarvel](#) : My gaming week was cut short when my Xbox stopped working. Played a bit of Legend of Ys on DS instead. Fun game, but a bit wonky!

[13xforever](#) : I'm still playing The Last Remnant, but y-day Braid was released, and a little bit earlier - The Path, so TLR now have some competition

[ajTwist](#) : lots of Stepmania, built a level in LBP and finally checked out Katamari on the iPhone

[cepwin](#) : FIFA 09..especially Ultimate Team mode, Resident Evil 5, Peggle, some Grid with neighbor and his 3 year old and finally Oblivion.

[Ray_Ayanami](#) : Oh! And some Sin & Punishment. I got a new SD card so I transferred my VC and WiiWare games onto it.

[Ray_Ayanami](#) : Pop'n Music 16, IIDX 16, Tetris TGM and TGM clones, Bangai-O Spirits, Star Soldier R, Gradius ReBirth. Same stuff basically.

[hendersonman](#) : Tomb Raider Underworld DLC, Fear 2, and Valkyria Chronicles
