In case you missed it my second favorite adventure game series is getting a remake and a sequel series this year!

Today's track is "**The Ship Song**" from **Monkey Island 3** {audio}http://www.angry-gamers.com/music/27_-_ship_song.mp3{/audio}

Please note due to copyright issues I can not make this song available for you to download directly.

From Monkey Island 3 (my personal favorite of the series) this song was introduced to us out of no where while sailing the seas for the first time. In order to get the crew to get on with running the ship you've gotta get them to stop singing by following the different dialogue choices and trying to trip them up. It's not really a puzzle but it was damn funny.

PS. NEW MONKEY ISLAND IS COMING OUT WOOOO!!!!!!!!!!
