Playing through Braid again I remember just how much I love the music so peaceful but at the same time kind of eerie.

Today's track is "**Maenam**" from **Braid** {audio}<http://www.angry-gamers.com/music/maenam.mp3{/audio}> Please note due to copyright issues I can not make this song available for you to download directly.

This sound track was hand picked by Braids creator and provides one of the loveliest sound tracks ever to be in a game. I have actually used some of the tracks from this game to get my daughter to sleep.
