We return live tonight after an unexpected two week break (sorry about that!) to tackle the latest in gaming news. A fan of Wipeout has taken the source code that leaked from the game and turned it into a full version of the game playable in a web browser, daring Sony to take it down but continue the series. Perhaps Sony isn't as litigious as Nintendo, but do we think this game will be much longer for the web? We talk about this and much more on another week of the longest running video game podcast, Orange Lounge Radio!

Also in the News:

* Playstation 5 Slim Rumors Increase with Video

* Pokemon Presents Recap

* Trailer for The Last Ronin

* New Port of Red Dead Redemption - Is it worth $50?

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
