

GamesCom happened this week, and we have much news to wrap up from that event. Earlier this week, however, Nintendo shocked many fans by announcing that Charles Martinet would no longer be providing the voice of Mario in their games, although he would be given a special ambassador role. We talk about why Nintendo might have wanted to make this change, and why they held off on naming the replacement. No, it's not going to be Clive, LOL. All this and much more news make up another week of the longest running video game podcast, Orange Lounge Radio!

Also in the News:

\* New Time Crisis Arcade 1UP has another Bucket List game...

\* Bold Starfield Leaker Arrested

\* Activision Blizzard Cloud Gaming Manuvers to Ubisoft in the UK

\* Atari 2600+

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
