During this episode, which was taped during some big football game most people were watching, we talked about some new releases for Wii Ware! It sounds like you might be able to print some of your Wii Photos soon. Also, Bubble Bobble will get a new version... and this time you should be able to get past level 30! Tune in to part A tonight to see who got BANNED from Orange Lounge Radio news permanently! Things get a lot nicer in part B although are wallets are feeling the pain of a very expensive port of The Last Remnant to PC. New Dead Rising, Lost Planet and Bioshock games are announced. Lastly, could it be true, a new TRON game?? Awesome. All this and more on the LIVE video game talk show where every gamer has a voice: Orange Lounge Radio! {enclose OLR_311_020109.mp3}
