

Starcraft 2, R4 Cart Europe Ban, Free Everquest 2, DJ Hero 2, Kinect, Metroid Other M and MORE on the show where EVERY gamer has a voice: Orange Lounge Radio

OOPS! We are a bit late in posting the show from 8/1 but an important show it was. Although we do talk about plenty of games, the show is pleased to announce the welcome of LOKIs baby! DarkSakura also has some advice for our listeners based on an experience she had this week. We do get into plenty of game chat including Starcraft 2 chart performance, and the R4 Cart ban in Europe. Facebook gaming news just keeps coming too, as news involving Zynga and Playdom is just too big for us to NOT talk about. Twitter Topics, Mailbag, Phone calls and MORE with special guests in our studio! Tune in!
