On Episode 312 of Orange Lounge Radio we are joined by a guest we do not get to see very often, Jamies husband Dan! Also, you get to meet Matt number two for the first time! They bring their unique perspective on gaming just like all of you do every week in the chatroom!

This week we talk about E3 news, including some surprises on who is NOT going to be there this year. Would you pay extra money for streaming Netflix if the movie selection was a little better? What about current shows from HBO? Has Gauntlet for the DS really died? Maybe they just shot the food...

In part B, we talk about iPhone gaming a little bit, starting with a port of Time Crisis for the iPhone. Now you can tap people to death! Sadly, you will not be able to shoot ducks anymore...

All this and more including your chatroom comments, emails and phone calls on the show where every gamer has a voice-- Orange Lounge Radio!
