PSP Firmware, Kinect Japan Launch, BBC America on PSN, XNA Kinect, FFXIV, PS33D, Witcher 2, COD: Black Ops bannings and MORE on the show where EVERY gamer has a voice: Orange Lounge Radio!

We are joined in studio this week by Marissa, adventure game fan and folk pop musician! She helps us with the LOLS this week as we discuss gaming news such as a pair of Kinect stories around the Japanese Launch and possible XNA support for Kinect. The creators of Witcher 2 take a bold new stance against pirates, and why do some people in Call of Duty Black Ops have to be such dumbasses?

Part B brings us news on Axl Rose being.... well Axl Rose, cool new Castlevania DLC and... woo, Tron news! All this and MORE including your e-mails, phone calls, twitter topics, chatroom antics, techno kittens and MORE on the show where EVERY gamer has a voice: Orange Lounge Radio!
