

E3 was one for the history books this year, and our hosts waste no time tonight jumping into the huge debate between the Playstation 4 and the Xbox One. We give our best to give a balanced perspective, giving pros and cons to both... but can't resist a good troll with a live listener question as well. Nintendo, not to be left out, also makes game announcements for the Wii-U. With all this excitement, there's plenty of gaming discussion for everyone tonight.

Also in the news:

* Killer Instinct - Free to Play or not?

* Mirrors Edge new game details

* Minecraft Saves from 360 to XB1

* The Last Guardian

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
