

Three pieces of Steam news came out this week from Valve, but sadly not about any games that have the number three in them. How do our hosts and participants feel about the announcements of a new OS and a new controller? And what does the panel make of what some gamers say is too much forgiveness for Valve compared to Sony and Microsoft?

Also in the news:

- * Survey on next-gen consoles
- * Day of the Tentacle HD remake (was stopped)
- * Pokemon Origins
- * Xbox Fitness

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
