

The OLR crew returns live tonight in a brand new studio space-- "Studio N7" which includes the return of Loki live in our studio! We get into some of the big news to come out of Game Developers Conference, including Sony's announcement that they are indeed working on a VR headset similar to the Oculus Rift. Is there room in a gamer's life for both VR headsets? We discuss with our live participants.

Also in the news:

- * Wal-Mart to begin trade in program
- * Several notable industry departures
- * Xbox One to launch in more regions in September
- * Unreal Engine 4 accessible to more developers

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!

LIVE on the VOG Network, Sunday nights at 6 Pacific, 9 Eastern www.vognetwork.com
