

Breaking News kicks off our show tonight, as rumors gain steam that Twitch.TV is soon to be bought by YouTube. This brings up some spirited debate amongst our hosts if this is a good move for the companies. The Kickoff topic that we had planned is discussed too, as the Kinect has now been disconnected from Xbox One in a new bundle set to hit before E3. Again, our hosts and listeners have some strong opinions on what this could mean for the future of Microsoft.

Also in the news:

- * Halo 5 announced

- * Path of Exile Charity Event

- * Far Cry 4

- * PS4 Camera price increasing?
