Lost Planet 2 is announced, but how long will the wait be? PSP gets a flurry of new announcements including the inevitable LittleBigPlanet release. Yay or nay? LOKIs wishes come true as it appears an Excite Truck sequel might finally be on the way to the Nintendo Wii!

In part B, plenty of XBOX Live news including Worms, Quake 3 and Virtual On? Also, we take on the issue of getting banned from XBOX Live for proclaiming your sexuality in your gamertag. Was this completely wrong of Microsoft, totally justified, or a big misunderstanding?

We tackle all this and more with the input of your phone calls, e-mails, chatroom comments and now twitter messages! All on the show where EVERY gamer has a voice- Orange Lounge Radio!
