We are joined on tonight's show by Eric of Rockage4.0, a MAGFest event taking place in San Jose from February 6th-8th. We talk about what gamers will see at the show, and how folks can even participate online with the 40+ bands performing.

In gaming news, Microsoft unveiled much information about Windows 10 this week, and how it will interact with gaming such as streaming from the Xbox One. Also catching a lot of attention is the new Hololens. How do our hosts and live listeners feel about this emerging new technology? Is it too early to believe in this new way to see a game?

Also in the news:

- * Battletoads to return?
- * Elder Scrolls Online dropping subscriptions
- * Club Nintendo Closing
- * Sid Meier's Starships

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!

LIVE on the VOG Network, Sunday nights at 6 Pacific, 9 Eastern www.vognetwork.com
