The Internet is on fire with rumors of Netflix producing a series based on the Legend of Zelda. Could Nintendo really be allowing this to happen, or is this a rumor that's spun out of control? We try to assess what is really happening. Also, will a plea for modders to stop making "adult" game mods really make them stop? Or is it only going to encourage people to make nudie mods even faster?

Also in the news:

- * Club Nintendo Rewards

- * Street Fighter V updates

- * Gold and Silver Amiibo

- * Gaze-Tracking in gaming?

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
