DarkSakura phones into the show tonight for a pretty amusing reason, then gives us the recap on her time at California Extreme, where she enjoyed many classic and music games. LOKI and Rob hold down the fort in the studio, where we talk about the week in gaming news, which was slowed a bit understandably by many folks taking time to remember the great Satoru Iwata.

Also in the news:

- * Dead Island 2 developer dropped
- * Street Fighter V new model of expansions
- * Xbox One to Windows 10 game streaming open for all
- * Tron: Escape

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
