It's Labor Day, which is not just a turning point in the year for a flood of game releases, but also the part of the year where there are many CONVENTIONS! What conventions are our hosts and listeners attending? We talk conventions on the show tonight, as well as a bit of news that came out of one big convention this weekend- PAX. Nintendo giving an indie title their very own Amiibo? Yup, it's hapening with Shovel Knight, and we talk about what other characters we might want to see get collectables someday.

Also in the news:

- \* More Nintendo Patents possibly giving NX details

- \* Mighty No 9 Trial Version

- \* Guild Wars 2 now free to play, no box purchase

- \* Lawbreakers

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!

LIVE on the VOG Network, Sunday nights at 6 Pacific, 9 Eastern [www.vognetwork.com](http://www.vognetwork.com)
