How will this weeks podcast be different when we invite an eight year old to join us to discuss the week in gaming? You'd be surprised at some of the insight in gaming (and blunt honesty) that our lil' guest brings to the show this week, when we recap some of the biggest stories from the Game Developers conference that occurred this past week. Are we excited about Virtual Reality? Are the eight year olds of the world?

Also in the News:

* Playstation Vue

* NX Controller leaked?

* Playstation 4.5

* Miitomo
