Splatoon 2, Valve, Pokemon Go-- All these games we bring up at the top of the show this week to talk about BANS. What games are doing them right? What games aren't doing enough (or maybe too much?) We give our opinion on policing the rules in games, getting input from our live chatroom on their thoughts as well. Of course we still have news to get into this week, including many stories about Virtual Reality! From price cuts to programming help, could this be the year that we really see VR ramping up?

Also in the news:

* Jump subscription service for indie games

* Switch updates including a PacMan Vs multiplayer help app

* Toy Story coming to Kingdom Hearts 3

* Radiohead puts an easter egg on the ZX Spectrum

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
