We celebrate 700 episodes of OLR this week with CAKE! It's no lie! Thank you all for being a part of this monumental occasion! After some celebration we dive right into the gaming news for the week, which includes the latest Nintendo Direct that took place. Were we surprised and satisfied with announcements like Minecraft for New 3DS out now, and Bethesda games like Doom and Wolfenstein 2 coming out soon? Or did it seem like there was still much to be desired, especially around Virtual Console? We discuss along with our LIVE listeners.

Also in the news:

* Golf in the Switch firmware

* PlayerUnknown Battlegrounds now Steam's most played

* Super Beat Sports

* New Carmen Sandiego

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
