We celebrated one year of the Nintendo Switch being out over the weekend. What have been some of the high points and low points of the system so far? What do we hope for in the next year (or two?) We discuss with our LIVE participants! Then we get into the news, which includs a release of Chrono Trigger on the PC! And while this should be very exciting, are folks happy with the port we got? Maybe not so much, and a disturbing trend in more mobile releases being ported over to Steam. Do gamers want mobile games on Steam, or no?

Also in the news:

* Super Mario Odyssey Patches and how it changes speed runs

* New label for in game purchases in games

* Playstation Plus to sunset PS3 and Vita free games

* Energy Drink sponsored fighting game tournament

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
