DarkSakura visited California Extreme this weekend and talks about some of the various retro and random machines she got a chance to try while there. We reminisce on some retro faves, and things we want to see at similar conventions around the country to this one. We then get into the weeks news which includes a follow-up to Nintendo's Joy-Con issue brought up last week. It appears Nintendo may be trying to get ahead of some of the backlash by offering a program to replace broken controllers. We discuss all this and MORE in gaming on another week of Orange Lounge Radio!

Also in the news:

- * Fire Emblem Voice Actor replaced
- * Doom Bethesda.net issue
- * Online Gaming Harassment study
- * Amazon to remove Prime Video from Wii-U

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!

LIVE on the VOG Network, Sunday nights at 6 Pacific, 9 Eastern www.vognetwork.com
