The unthinkable happened this week and Valve announced a new Half-Life game! Only it doesn't have the number three in the title. Oh well, does this change our excitement levels for the game knowing that it's a VR only experience? Half Life: Alyx leads our week in gaming news, along with some big rumblings of Amazon potentially getting into the cloud gaming scene. Speaking of cloud gaming, our voice over man Jason takes over the show for a bit to talk about early impressions of Google Stadia.

Also in the news:

- \* Hackers bring some Pokemon back to Sword and Shield

- \* The Game Award Nominees

- \* Dualshock 5 patent

- \* Black Friday sales

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
