We are on the eve of a new generation of consoles, something we've really only seen twice before in the 18 plus year history of our show. We talk about where we stand on Xbox Series X as well as the Playstation 5. Which consoles are we getting? Which ones are giving us trouble in the ordering process? Which ones are we going to wait on? And we talk about some of the last minute changes with the consoles that have us wondering if maybe it was too soon to be jumping into the next generation. We talk about all this and more on the dawn of a new generation on this week's Orange Lounge Radio!

Also in the news:

* Stadia on iOS thanks to fan app

* Mass Effect Trilogy Remaster

* OutRun Arcade 1up machine

* Sega to get out of Arcade Business

[[Please note: Due to unexpected internet issues, the show ended earlier than usual. Due to this some of our regular segments such as our mailbag will be rolled over to next week]]

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
