

The Mario Bros. Movie has been released, and boy did it make a LOT of money, exceeding expectations. We certainly have come a long way from video game movie adaptations of the 90s. We talk about what might be different now, and what the success of the Mario Bros. movie might mean for future video game movies. It looks like Street Fighter has already been confirmed to be made. Maybe it will make a lot of money too, or maybe it was just last Tuesday. All this and much more round out another episode of the longest running video game podcast, Orange Lounge Radio!

Also in the News:

- \* No Mans Sky Interceptor Update
- \* Konami Opens Konami Osaka
- \* Breath of the Wild Multiplayer Mod C&Ded on YouTube
