

We are back after the independence day holiday to talk about FIRE! Okay, we also get into game chat too tonight, and in part A we talk about games that have disappeared from XBL marketplace. Why did this suddenly happen? Well, it makes sense once you hear it. Some rumors about the Playstation 3 sound very exciting, but the price point of the PSP Go is still leaving a sour taste in our mouth. Think we are right? Think we are totally off base? Dont forget to send us an e-mail to mailbag at orangeloungeradio dot com. All this and more including a clarification on Chinas new gold farming law, and information on a new Final Fantasy game! Most importantly- YOUR voices through our chatroom, our phone calls, e-mails and much more on the show where EVERY gamer has a voice: Orange Lounge Radio.
