PS Move, Kinect Indie Games, DJ Max Portable 3, DJ Hero 2, Sonic COlors, Gran Turismo 5, Goldeneye, Pokemon Black White and MORE on the show where EVERY gamer has a voice - Orange Lounge Radio!

On tonights show, we are joined by Dan and Misty as Loki is still out on baby leave. There are laughs a plenty in studio, but we tackle some serious topics such as the latest in Kinect and PS Move news. Is it a total ripoff that the only way to get NBA Jam on 360 or PS3 is thru a purchase of Elite 11, or are people just looking at the math all wrong? A pair of music game stories tell us the latest in DJ Hero and DJ Max, and you really won't believe the game that the developers of Disgaea are making next. Also, video games go the way of Clockwork Orange... in a way. Twitter topics, E-mails, Phone calls, LOLZ and so much more.
