

Tokyo Game Show, APB shuts down, new PS3 firmware, Halo Reach, Tekken Tag Tournament 2, Rock Band vs Konami, Kinect Joyride, Shadows of the Damned, Resident Evil movies and MORE on the show where EVERY gamer has a voice: Orange Lounge Radio!

The Tokyo Game Show brings a boatload of news to the program this week, but not all the news is from overseas. A pretty big MMO shuts down after only three months, but is it only the end? Is it fair that a sixty dollar game only lasts so long? A new PS3 firmware is set to launch, but will anyone REALLY be using the new feature on it right away? A game sales website pulls a shady publicity stunt-- but at what cost? Special guests in studio RicePrincess and 'The Doctor', who the show hasn't seen in quite a while, keep things especially hilarious this week... THE VENGABUS IS COMING!
