Orange Lounge Radio teams up with Bobby Blackwolf and Miklotov to bring you LIVE E3 coverage from the show floor in LA. On our second and final special, we discuss more hands on time with stuff on the show floor like the Playstation Vita, and some information from behind closed-doors presentations of Skyrim, Prey 2 and Dust 514. Your chat comments and more round out another E3 on the show where EVERY gamer has a voice- Orange Lounge Radio!
