We take a moment at the beginning of the show to remember a legend in entertainment and a hero to many geeks everywhere- Leonard Nimoy. We talk briefly about some of his contributions to video games as well. In the news, Fable Legends is reported to be Free to Play. This was a game many expected to be a "standard" retail release at E3 last year- what may have changed?

Also in the news:

* Dragon Quest Heroes to PS4

* Final Fantasy Mystic Quest HD (It's not official)

* The return of Guitar Hero as well?

* Xbox Live Price Cut

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
