The show is back after a week off where Rob attended PAX East, and although he enjoyed meeting listeners and friends at the show, he gets a few honest opinions off his chest of what's been bugging him about a show that's changed a bit over the years. In an OLR first, a guest correspondent submits a story that dives into the cease and desist issue between Konami and Programmed World. Will the faithful Bemani fans still out there be able to play the newest Beatmania IIDX machines from Japan ever again?
