

Some companies had a lot to talk about at Gamescom, and one of them was Microsoft! They announced Halo Wars 2 as well as gave us an update on Scalebound. We talk about all the news out of Gamescom, and also spend a bit of time talking about a recent release- Rare Replay. Are "retro" collections like this sometimes just one or two great games filled with junk? How do our memories of games as children effect the way we view them as adults? Our hosts kick off the show with this discussion on retro games with our listeners.

Also in the news:

- * New World of Warcraft Expansion
- * Subscription Free DVR for the Xbox One
- * Rumors about workplace situation at Konami
- * Killer Instinct Season 3
