There's a big football game and concert on the TV, but it doesn't stop our hosts from coming together for another live episode of Orange Lounge Radio, where we kick off with talk on Microsoft's decision to remove snap mode from the Xbox One. Will this feature be missed? Or are we ready to move on to something potentially even bigger? We discuss our gaming weeks, then get into more gaming news which includes one very big judgement to the tune of half a billion dollars.

Also in the news:

* Squeenix and Marvel collaboration

* PS4 incoming update to add external HD support

* Mega Man 2.5

* Project Giant Robot canceled

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
