

Gamescom happened this week, and with it two large online events showcasing the latest games, including a Microsoft event, and Opening Night Live from The Game Awards team. A new Saints Row game was teased at Opening Night Live, but was it what our resident Saints Row fan LOKI was hoping for? Or were there issues with the way it was announced? We discuss this and much more from the week in gaming.

Also in the news:

* Metroid Prime 2D Project Shut Down

* MLK Experience in Fortnite

* DDR PC Alpha Test

* Blizzard to change the name of Overwatch's Cowboy
