

New details about the PSVR2 were announced this week, though surprisingly it was all done via a press release, and not thru a special "direct" style presentation, or a live conference. Did Sony do this due to the high price tag of the device? The availability of it (or lack thereof?) We theorize and discuss this week on the show. Our gaming weeks, more gaming news, and plenty of tangent trains make up another episode of the longest running video game podcast, Orange Lounge Radio!

Also in the News:

\* PS Plus Loses 2 Million Subs

\* XCloud gets Resolution Boost (on some devices)

\* Overdose, a Kojima Game, leaks (or it's a really good hoax)

\* Oregon Trail comes to Switch

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
